Featured Projects

TN RESERVE / TROUT NATIONAL - THE CLUBHOUSE

Vineland, New Jersey

Private Golf Club | Clubhouse & Hospitality

ABOUT THE PROJECT

Trout National - The Reserve is a private golf destination in South Jersey centered around a championship golf course and distinctive clubhouse designed for hospitality, recreation, dining, and member experiences.

PLUMBING RESOLUTION SCOPE

Commercial plumbing construction supporting the clubhouse and associated hospitality spaces, including domestic water, sanitary and vent piping, plumbing fixtures and equipment connections, specialty plumbing systems, and coordination with other trades throughout construction.

1001 RESIDENCES

1001 S. Broad Street | Philadelphia, PA

630 Multifamily Units | Mixed-Use Renovation

ABOUT THE PROJECT

A large-scale multifamily redevelopment consisting of 630 residential units, first-floor retail, and rooftop amenity spaces.

PLUMBING RESOLUTION SCOPE

Comprehensive multifamily plumbing construction including domestic water distribution, sanitary waste and vent systems, unit kitchens and bathrooms, water-heating systems, common-area plumbing, retail infrastructure, rooftop amenity plumbing, and project-wide fixture installation.

PIAZZA ALTA

1099 Germantown Avenue | Philadelphia, PA

680 Multifamily Units | Mixed-Use New Construction

ABOUT THE PROJECT

Large-scale ground-up multifamily development featuring approximately 680 residential units, first-floor retail, and extensive rooftop amenities.

PLUMBING RESOLUTION SCOPE

Full plumbing construction for high-density residential buildings, including underground and above-ground sanitary systems, domestic water distribution, unit kitchens and bathrooms, water-heating systems, retail plumbing infrastructure, and plumbing/gas systems serving rooftop and shared amenity areas.

Featured Projects

THE POPLAR

900 N. 9th Street | Philadelphia, PA

285 Multifamily Units | Adaptive Reuse

ABOUT THE PROJECT

A large-scale adaptive reuse development transforming a historic structure into a mixed-use residential community with 285 apartments, commercial and retail spaces, and extensive resident amenities.

PLUMBING RESOLUTION SCOPE

Large-scale plumbing renovation supporting the adaptive reuse of the existing structure, including residential plumbing systems, domestic water, sanitary and vent piping, kitchens and bathrooms, common areas, and rooftop amenity plumbing.

THE DARIEN

815 Poplar Street | Philadelphia, PA

212 Multifamily Units | Ground-Up Construction

ABOUT THE PROJECT

A ground-up residential development consisting of 212 multifamily units with first-floor retail space.

PLUMBING RESOLUTION SCOPE

Ground-up multifamily plumbing construction including underground piping, sanitary waste and vent systems, domestic water distribution, residential kitchens and bathrooms, plumbing fixtures, equipment connections, and first-floor commercial/retail plumbing infrastructure.

650 FAIRMOUNT

650 Fairmount Street | Philadelphia, PA

107 Townhomes | Ground-Up Residential

ABOUT THE PROJECT

A large-scale residential development consisting of 107 new-construction townhomes in Philadelphia.

PLUMBING RESOLUTION SCOPE

Ground-up plumbing construction throughout the development, including domestic water, sanitary and vent systems, kitchens and bathrooms, water heaters, plumbing fixtures, and associated residential plumbing systems.

Featured Projects

FRANKFORD GRAND

1120 Frankford Avenue | Philadelphia, PA

107 Multifamily Units | Mixed-Use New Construction

ABOUT THE PROJECT

A mixed-use development featuring 107 residential units, first-floor retail, and rooftop amenity spaces.

PLUMBING RESOLUTION SCOPE

Ground-up plumbing construction for residential units, retail spaces, and common amenities, including sanitary and vent piping, domestic water systems, kitchens, bathrooms, plumbing fixtures, and associated building plumbing infrastructure.

THE BEVERLY

1102 Germantown Avenue | Philadelphia, PA

50 Multifamily Units | Mixed-Use New Construction

ABOUT THE PROJECT

Ground-up mixed-use development consisting of 50 multifamily residential units with first-floor retail space.

PLUMBING RESOLUTION SCOPE

Complete residential and commercial plumbing construction, including sanitary, waste and vent systems, domestic water distribution, unit kitchens and bathrooms, fixture installation, and first-floor retail plumbing infrastructure.

THE PARKER

1301 Bainbridge Street | Philadelphia, PA

45 Multifamily Units | Mixed-Use New Construction

ABOUT THE PROJECT

New-construction residential development featuring 45 multifamily units and first-floor retail space.

PLUMBING RESOLUTION SCOPE

Ground-up plumbing systems for residential and retail areas, including domestic water, sanitary and vent piping, unit kitchens and bathrooms, plumbing fixtures, and commercial plumbing infrastructure.

Commercial Project Experience

Selected commercial projects demonstrate Plumbing Resolution's experience beyond multifamily construction.

DEAR DAPHNI

125 S. 20th Street | Philadelphia, PA

Restaurant Tenant Fit-Out

Commercial plumbing construction supporting restaurant operations, including kitchen, bar, sanitary, domestic water, fixture, and equipment connections.

TE CONNECTIVITY

680 E. Swedesford Road | Wayne, PA

102,000 SF Office Fit-Out

Commercial office plumbing systems and fixture installation supporting a large-scale corporate office fit-out.

PHILADELPHIA FEDERAL CREDIT UNION

4300 Ridge Avenue | Philadelphia, PA

Bank Tenant Fit-Out

Commercial plumbing systems supporting the new banking space, including domestic water, sanitary, fixture, and equipment connections.

ARES INDUSTRIAL MANAGEMENT

1801 N. 5th Street | Philadelphia, PA

Warehouse & Two-Story Office Space

Commercial plumbing construction serving warehouse operations and first- and second-floor office areas.

Core Capabilities

Multifamily residential plumbing systems • Mixed-use podium and retail spaces • Adaptive reuse and renovations • Amenity-rich developments • High-density residential water, waste, vent, and gas systems • Commercial kitchens and hospitality spaces • Office and tenant fit-outs • Coordination with phased construction and accelerated schedules
